CLUBS ARE INTERESTING

This year there are many old and new clubs. Club nights are every Tuesday night from 6:00 to 7:00. There are many clubs. Some are the Knitting Club, Drama Club, Leather Craft Club, Greater Music Club and the Audio Visual Club.

Last year there were only a few clubs but, this year there are more clubs which should be taken as a privilege from the stand point of the students. All of the clubs are interesting and should be lots of fun. As most students know they can not have these clubs unless the students sign up for them. So.... be good sports and join the clubs. Okay? Not only will it be fun but it will also be something to look forward to.

In these clubs you learn a lot and can make beautiful presents for your family and friends. This can be a good opportunity for all the students especially for those who never joined any clubs before.

Regina Katelnikoff

DANCES ARE FUN

This year there is a Dance Committee. At the meetings they plan ahead for the next Saturday. They find out who would select the records to play and what kind of dance it would be.

Last week there was a regular dance. Many of the students went but few went down to dance. Some girls that went were planning on dancing when asked, but it seemed as though the boys didn't see it that way. Anyway those girls felt disappointed. So boys be real gentlemen and not neglect the girls.

We all hope some improvement will take place.

Come to the Hobo Dance this coming Saturday and make use of the time. DANCE!

....Elizabeth Goodwin

Who's Who?

Linda Hadley

This particular girl is usually seen with G.R., A.P. and E.R. She has very short light brown hair that matches her eyes.

She is well liked by the girls and boys here at the Institute and stands five feet and two inches in height.

WHO DO YOU THINK SHE IS????

This particular boy is very popular with his rock-throwing. He chases girls, (including me) all over the place with rocks in his hand.

WHO DO YOU THINK HE IS????

A-V CLUB ORGANIZED

The Audio-Visual Club had its first meeting of the year on September 23, 1965. As in previous year the club starts out with 45 members. Throughout the year the number remains the same, but different students are involved.

At the first meeting the following officers were elected: Marsha Peterson, president; Leonella Fratis, vice-president, Olive Nichols, secretary; and George Williams, chief technician.

The club members include all of the students listed in the mast head of the WRANGELL EAGLE.

One of the chief functions of the A-V Club is the publication of the school paper. While the core of the paper work is centered in the club, other students are not excluded. All students make contributions through the classrooms, and any student with special skills needed by the staff, can report to the library any afternoon after 4:00.

BOOK DONATED TO LIBRARY

The book Birds of Alaska, by Ira N. Gabbirlson and Frederick C. Lincoln was recently donated to the Wrangell Institute Library by Mr. & Mrs. Doran Beitz of Juneau, Alaska.

Students who travel through Juneau know Mrs. Beitz as the lady who is always smiling and talking to them from the gift shop.

The book, the second such gift from the Beitz in the last two years, was met with welcome at the library. Many inquiries had been made concerning information from such a book in past months. Thanks to the donors, the information can be supplied.

HATS OFF TO CHARLIE

The neatly dressed young man rushed into the airport, said good afternoon to the travel adviser, and immediately gave the adviser a wallet. The adviser expressed surprise, and the young man told him that he had found the wallet on the plane that had just arrived from Fairbanks.

Charlie Titus of Minto and the Mt. Edgecumbe boarding school went into Juneau and boarded his flight for school. Charlie probably did not know that the wallet contained a unique sum of money.

The owner was quite happy over the return of the wallet.

SHOPPING IN TOWN

Every Saturday we have town shopping. We have to make a list of items that we need. Then we figure out how much we will need to buy these items.

On Saturday about noon we get ready for shopping. We have to dress nice and get our money. Then we get on the bus that takes us into town. When we get to town, we go shopping for what we need. When we get finished with our shopping, we return to the Institute or go to a movie in town if it is going on yet.

When we get back to the dorm, we have to check with our aid, so they can write our number on the things we got from town.

If you want to go shopping, sign up so you can go. Hope I see you kids on the next bus.

Cynthia Hall

WRANGELL INSTITUTE BEATS TOWN FRESHMAN

In track there are seven runners. Every runner has to run two and a half miles every evening after school till October 9th.

On October 9th there will be a track meet between Petersburg, Wrangell High School and Wrangell Institute track teams.

Last week they had the race between the Wrangell Institute track team and the Wrangell Freshman team there were ten runners on the Wrangell Freshman team. All of the ten runners of Wrangell Institute came in before the Wrangell Freshman runners came in.

LOST IN SPACE

Last night we saw on television "Lost in Space." There were a few people that got lost in space. A man went outside to fix something. When he was getting close to it the rope broke. He began to float around. His wife went out and saved his life. Then he fixed the thing he was going to fix, but they couldn't get back in. They fainted because they were getting too hot. Their laughter saved their lives.

Anna Willis

I like to look at T.V. I saw about a man in space on T.V.

....Debra Condardy

We go to the Library on Tuesday. I like to read good books.

....John Camille

I had a nice airplane ride coming to Wrangell.

During the summer we picked berries and fished.

....Roy Matsuno

I live at Sheldon Point, Alaska. I like to go to school. My teacher is Miss Winfrey.

....Mary Adonis

Halloween is October 31st. We will have lots of fun. I like Halloween.

....Evelyn Nick

We have a T.V. in the boy's dorm. I like to watch T.V. We see many things on T.V.

....Stanilus Penetac

We have Church on Tuesday evening. I like to go to church. We have good service.

....Elizabeth Aketachunak

I came from Red Devil, Alaska. I like to go to school. We read good books at school.

....Tommy Willis

We have a store in the girls dorm. We can buy popcorn and candy.

....Shirley Willis

THINGS ARE NEW

In each dorm there is one T.V. set. We watch it at night after details are done. These T.V. sets are new at this school. Last year they did not have T.V. at Wrangell.

The offices have changed around, too. Mr. Watkins office was in Mr. Heflebower's office, and Mrs. Cooper's office was in Mrs. Fisher's office.

We have a new student bank that is in Mrs. Bashillier's office.

So, you see we have every thing, or almost everything new here.

STUDY HALL STARTED

The teachers have started a study hall in the library. The purpose of this study hall is for those who can't get their studyings finished in school. Usually the students have a lot of homework when school is out. It's sometimes noisy up in the dorms. They can get their studying done in the study hall in the library.

The teachers think it's a good opportunity for the students. Most students like the study hall.

....Carl Okboak

STUDENTS ENJOY SCHOOL

Wrangell School is a good place for going to school. They have separate rooms with different studies, it also has good teachers of different kinds like English teachers, Math teachers, Science teachers, Reading teachers, and Social Study teachers. Schooling is fun in Wrangell because you have a chance to study hard. The teachers help the students who study hard.

There are also different types of games which the students enjoy. Weekends they can go shopping or to the movies or other activities.

Albert Kvamme....

HOBO DANCE COMING

On Saturday, October 16th there is going to be a Hobo Dance. Everyone is supposed to dress up like hoboes. It will be held in the gym from 7:00 to 9:00. Everyone should plan to attend and join in on the fun.

....Karen Bendixen

REPORT CARDS ABOUT DUE

When school first started everyone got lost. Almost everyone that is. Now everyone is and should be all set.

A month has already passed since students arrived here. This means that there are eight more months of school yet to go. Everyone should make the best of his time in these eight months to come and try his best.

The Report Cards will be coming out in a few more weeks. All the students are anxious to see what their grades will be. Some will be pleased with what they've done. They will also know in what subject they will have to work a little harder and what subject they are doing well in.

....Jennie Aukon

KNITTING CLUB INJOYED BY GIRLS

Mrs. Gskolkoff and Mrs. Gillespie started a knitting club last Tuesday night at 6:00 till 7:00 p.m. Too many girls wanted to be in the club so they divided it into two groups. The first group will meet during the first semester. There are some girls who know how to knit, and are making gloves, slippers, or other things. Those who do not know how to knit are learning to do simple knitting. The knitting club meetings are held in Room C.

....Margaret Ahmaogak

HIGHEST SECTIONS SELECTED

At the end of September, the scores of room checks in each section were added up. The sections in each dorm with the highest score awarded a cake and a box of cocoa. These sections were sections 16 and 5. The Instructional Aids select the winners in both the South and North Dormitories. The following boys are in section 16: William Ilutsik, Charles Lockwood, Harold Howard, Richard Scott, Billy Tickett, Carl Okboak and Jacob Malavansky. Section 16 had the highest score in both dorms. In section 5 are the following boys: Paul Passamika, Eugene Asicksik, Anthony Kochutin, Glenn Cook, Gene Kompkoff, Arthur Condardy, Brian Burgess and Leonard Adams.

It is hoped that the sections will improve and that more sections have better luck for who knows what the next will be!

....Jacob Malavansky

I like to go to town. We went on a tour when school was getting ready to open.

....Anthony Prince

ELECTION HELD IN GIRLS DORM

On Oct. 7, there was an election for the Girls Dorm Council. Of the many girls running for the various offices, Gloria Riley was elected President, Margaret Hess was elected Vice-President and Elizabeth Goodwin was elected Secretary-Treasurer combined. Alma Kingeak, Emily Lane, and Linda Scott were elected Representatives. They will do their very best in doing their duties.

....Nancy Hess

BOY'S T.V. SET REPAIRED

The Boy's Dorm T. V. set has not been working but about a week and a half ago it was fixed. We are now watching football games, cartoons, the Beatles and other singers.

We also watch movies about "The Wild, Wild West," "Lassie's Great Adventure," "My Favorite Martian," and "The Rifleman." There are all good programs. It is fun watching these shows.

....Paul Passamika

FIRE DRILL HELD!

A real walk-through fire drill practice was held recently. It was real fun watching the boys trying to put out the fire. They staggered around with the hose trying to put out the fire. They splashed the men on the other side, who were trying to help to put the fire out. Finally the fire calmed down.

Everyone hopes there will never be a fire, but if there is one, the boys on the fire hose will do a good job.

....Bert Greist

DANCE HELD

On Oct. 8th the Girls' Dance Committee got together and all agreed to have a "Sock Hop Dance." It was lots of fun and it looked like everyone really enjoyed themselves. Last year there wasn't any committees such as a committee, the dances should be more fun, and more activities will be planned.

....Regina Katelnikoff

P.E. CLASSES ARE FUN

Every Monday and Wednesday the girls have Physical Education. P.E. is a lot of fun and is a good way to lose weight. This week there has been a lot of rain, so we have had to stay in the gym and play soccer. When it's nice outdoors everyone goes out to try her skill in archery.

Mr. Fisher tries his best to please the students and will appreciate it if you will try to cooperate.

Emma Hedlund

SCIENCE CLASS COLLECTS SPECIMENS

Last week Mr. Goudie's science class took a little walk up a hill near the school. They collected some fern, soil and fungi. Frank Prince, who is in Mr. Goudie's class, waters them every week. Mr. Goudie is planning to take his class to the beach and collect some things to study.

The class sketched pictures of a microscope, plant seeds, a flower, a typical cell and an amoeba.

Daniel Wright Jr.

STUDENTS ENTERTAINED

There was a man here not long ago who skated. One side of his leg was braced. I can't see how he could skate with a brace on his leg.

He might come back and skate again for us. He said he's going to bring his partner with him so they can dance with roller skates on.

It was interesting watching him skate, we enjoyed it. After we watched him skate, we had a movie about U.S. soldiers blowing up the Germans: which was interesting too.

Sarah Joe

We will have a Halloween Party at school on Halloween.

We will play games and have lots of fun.

....Darlene Kobuk

Sports

With

Walter Jack

There is a track team in Wrangell Institute this year. They are competing with other teams such as Wrangell town team, Kake team and others. They have already competed with Wrangell town team.

We were all glad to see our team come in first. That was our first victory of this school year. We are wishing for more through the school year.

CROSS COUNTRY

Three teams met on Saturday, October 9th. They were Petersburg, Wrangell (town), and Wrangell Institute. Petersburg came in first place with 30, then Wrangell Institute with 39, third was Wrangell (town) with 50.

GETTING READY FOR BASKETBALL

We are just exercising for basketball as yet. Our coach, Mr. Fisher is letting the basketball boys do the exercising and running on their own. We are not organized yet. He is planning to get us organized soon. We are having our first basketball practice on October 18th.

MESSAGE WRITTEN FOR PARENTS

We were happy to receive all your children at Wrangell this year. They arrived safely and a bit tired. Before checking into the dormitories they ate a nice lunch and were checked by the school health nurse.

During the first week of school a team of doctors arrived from Mt. Edgecumbe to give your children physical examinations. This was the first time a medical team was on hand to examine the students. We were very pleased that this service was made available to them.

We know you miss your children, and we are going to do everything we can to make their stay at Wrangell Institute a pleasant and happy experience. We also want the children to learn as much as they can while they are here.

Letters from home are very important to your children when they are away from home. Won't you please write to them as often as you can and give the children encouraging news to help them have a successful and happy year.

Lillian D. Walker
Principal

WHAT ABOUT THE FUTURE?

How easy it is to think only of today or of what will happen tomorrow, or even this weekend. These times are near at hand. They are easy to think about. It takes little effort to look at our weekly calendar and see what will happen within one week.

Strangely enough, we will live longer than just one week. We will be around quite a while after tomorrow or next month. Most students will live for at least fifty or sixty more years, and that is a long time. That is called the future.

It is easy to not worry about the future until it gets here, but there will be many surprises, many disappointments, and many happy moments. Many problems will arise and we must be prepared for these problems. Depending on how well we plan, these problems will cause much difficulty or they will be easily solved.

Today - right now - is the time to plan for the future. This is the time something can be done about the future. Every person has a part to play in the future. Everyone is making problems or solutions for his tomorrow.

Martin L. Heflebower
Department Head, Guidance

CHORUS STARTED

The Wrangell School chorus was started immediately after school started. The chorus director is Mr. Stewart Nutter. Mr. Nutter is new to Wrangell this year.

The chorus so far has twenty members. There are many opportunities to perform. On the 24th of November they will sing in a Thanksgiving assembly in the gym. Sometime in the future they will sing with the high school chorus in town. The chorus' social committee is planning a party but, no date is set.

The chorus members have elected officers. They have elected the following: President: Leonella Fratis, Vice President: Erena Shane, Secretary & Treasure: Linda Hadley. The chorus members have given themselves a name called the "Northerners." Happy singing to all "Northern."

The Secret of the Old Clock, by Carolyn Keene (New York Grosset & Dunlap): Nancy Drew, a detective helps Judy and her aunts Mary and Edna Turner solve the mystery of the old clock. Judy's parents were killed in an explosion so her aunts adopted her. Her parents didn't have very much money and her aunts didn't have very much either. They had to sell some of their furniture for clothes for Judy. Edna and Mary's cousin Josiah Crowby used to help them in bringing up Judy. He was a very wealthy man and he always used to say that he was going to remember them in his will. When he died they couldn't find his will. Nancy solved the mystery and found the will hidden in the old clock.

Say Hello Candy, by Bianca Bradbury (Coward McCann, Inc.): Candy Andrews and her parents used to go to Maine every summer. Now they were going to live there all the time. Her Dad had an accident which caused him to be in a wheel chair. Now money had become a problem and the only way they can solve it is by moving to a small house in Maine. Candy did not want to go. She didn't want to leave her boy friend, Tom. Later, after they are in Maine, she finds herself a new boy friend and soon forgets Tom. She then ends up liking Maine.

LEARNING IS FUN

We are learning about beans and how they grow. We even learned how the inside of a bean grows. It's fun learning about beans because they grow up into a tree. We are also learning about flower. We learn how the inside of a flower looks. We even learn what parts of the flower looks like. We learned what pollen and a stem and stigma are.
